

# LETTER TO ALMIGHTY

OH LORD!!

Why am i living, where am i living, why do you let me live.

I am the person who lives in India where many scholars were born and this is the country which taught the world to live a peaceful life.

But at present I am taking a breath on the same land but I am following the foreign culture.

Oh lord what is this world?

The wealth is imported from one land to another along with culture.

Money has become the first priority of life.

Teachers are teaching for wealth; they do not care about the welfare of students.

Students care about marks they are not interested in knowledge.

Humans care about power but not values.

Religion and caste have become the greatest weapons.

Oh lord why do you let me live?

Here parents are not worried about their children's life, they wanted to see him settled on the basis of money.

Here education has become business.

Here knowledge is measured in marks and certificates.

Here human values are not cared for.

Here you are free to kill a person and you will not be punished.

Here children lost their knowledge in recognising their inner talents

Oh lord, you left me in the same world and turned my mind as theirs.

Why didn't you take me?

I am worried that I am going to spoil my kids as I am spoiled.

What can I do when no one is going to change.

Whom should i change?

Where is the fault?

Whom should I fight against?

I myself have been struck in this labyrinth. Will I be responsible for these terrible acts?

Oh lord why don't you stop me?

Oh lord, Please save this land from us .

Oh lord, Please save the children

Oh lord, Please take me to you.

We live where life is a mystery, full of riddles

If you question others or ask the reason you are a traitor.

If you are different from others then you are mentally ill.

If you are quietly talented in other skills then you are going to spoil your future.

If you do not get marks you are worthless.

If you follow ancient culture then you are not developed or you are superstitious.

If you want to live, suppress your dreams and be ready to flow and mix in the great ocean.

But remember, the water which is going to mix in the ocean is worthless.
